

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

[10 minutes](#)

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

[5 minutes](#)

PROBLEM
Using Cognos display the data

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

[10 minutes](#)

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

SUBALAKSHMI

Summary cards	Reports and no of municipality	Waterfall chart
no of reports by contract	Rightcount by category	data visualization
pie chart	continent view	continent filter

KALAIYARASI

not meeting demand	Network map	APRIL-2020 in report
import performance report	resources coverage data	last the dataset
performance of data set table	IBM cloud	multiple analytical topics

KEERTHANA

Report filter	column chart	exploration of data
understand the descriptive statistics	data preparation	calculated field
data set	IBM cognos	data driven spreadsheet

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.
